

Pitching Guide

To help everyone enjoy their time please could we ask you to follow the rules below - thank you.

- All vehicles and touring caravans should be pitched facing forward towards the road for easy removal in the event of an emergency.
- Please ensure there is a minimum of 6 meters between your unit (tent, motorhome, caravan, etc) and your neighbours. Please also leave 1 meter around the perimeter of your pitch clear from any obstructions, including guy ropes.
- No units should occupy more than their allocated space.
- Units pitched incorrectly will, regardless of any other issue be requested to pitch in the correct manner.
- If your unit is right hand drive, please advise our team by calling 01485 534211 so we can ensure you are allocated a suitable pitch.

FRONT OF PITCH

If you require assistance, please contact reception before pitching up.
