

Recycling Guide

A quick guide to recycling waste during your stay

1 Separate your waste

Use the dedicated facilities for each type of waste:

- Food waste - use the supplied food waste bag
- Plastic & Cardboard - use the clearly marked recycling bins
- Glass - take bottles and jars to a dedicated glass recycling point
- Anything that cannot be recycled should go into general waste

2 Use the right bag

Recycling must be visible so it can be checked and processed correctly

- Place plastic and cardboard loosely into recycling bins or use a clear bag
- Do not put recycling into black bags. Black-bagged items may have to be treated as general waste

3 Take it to the correct point

Recycling stations are marked on your resort map.

- Staying in Searles accommodation? Use the food-waste caddy provided, then empty it at a red-signed Food Waste bin
- Touring or camping? Use the shared food-waste points. Dedicated points are located by the Play Area and next to the MUGA pitch
- Take plastic, cardboard and glass to their clearly marked recycling points

Need more food-waste bags? Please contact Main Reception and the team will be happy to help.

We believe that small actions can have a big impact. By using the food waste and recycling facilities during your stay, you are helping us build a cleaner, greener future for everyone.
